	Thank you lunch for Leadership discussion with the Hollard team (among other things infrastrucutre)		Enabling improved understanding of the market
Stellenbosch	Discuss energy positive Industrial nodes	Invite UNIDO to Atlantis SEZ event in parralel with Enlit	Enabling improved understanding of the market
Cape Town	Successful bidder for the Cape town 7MW project in Atlantis. Discussion around community engagement and project implementation & broad business environment		Enabling improved understanding of the market
Cape Town	Candi business model (opened office in Cape town) - target market and barriers	Staying in touch	Enabling improved understanding of the market
Cape Town	Discuss market size for Energy projects in South Africa - linked to industrialisaiton	Stay in touch, MIRs	Enabling improved understanding of the market
CApe Town	To understand new business venture and assist where possible in introductions	Introduced to Agriculture team at GC, looking at networks to try find mechanism for certifying their process	Local manufacturing
GreenCape offices	Looking to make connection with them and seek areas where they may need assistance and get market insights	Will take forward questions about SSEG in specific municipalities for specific engagements	SME development
			SME development

N/A	To identify opportunities to support Agriprocessors with water and energy efficiency	Keep in touch regarding a potential support programme Want to understand if there is a possible investemnt opportunity or not.	Local manufacturing
CTICC	Gain a deeper understand	Want to understand if there is a possible investemnt opportunity or not.	ystem development (market intellig
CTICC	Gain a deeper understand Introduction to new members on Energy and Water teams. Discussion of new project	Staying in touch	Enabling improved understanding of the market
GreenCape Offices	To gain understanding of business operations and recent developments in WC	Will stay in touch, take feedback into account with market intelligence report GreenCape to share water resilience case studies and the absa to meet with GreenCape to dive deeper into their water	Enabling improved understanding of the market
N/A	a's strategy to invest in t	mandate	eased investment / finance availat
GreenCape office	s three fund which is ain	Continuously share any opportunitites in the water sector that fit the fund mandate	eased investment / finance availat
GreenCape office	client base in Cape To Introduction and networking meeting - CRSES director and CleanTech South/ICN member - Uni	Keep Eric informed on any developments and tenders that might be applicable.	Local manufacturing
CRSES office	Portsmouth visitor (David Hutchinson)	Expand network, keep in contact about potential future opportunities / projects for collaboration	Enabling improved understanding of the market
GreenCape office	support water security a	Improved understanding of the opportunities.	ystem development (market intellig
GreenCape office	Climate finance market intelligence sharing	Improved understanding of climate financing landscape applicatble to water and energy infrastructure investments the region	Enabling improved understanding of the market
Kalk Bay N/A	support business resilie planning the CEO wate	Agree to collaborate and work together Provide wesgro with contacts JR to engage with city to access watre treatment information and has provided information on	eased investment / finance availat eased investment / finance availat
N/A	o, specifically around ur	hand	eased investment / finance availat
N/A	ation bricks to solve wat	Christopher to give the GreenCape team feedback on the engagement with farmers	ing improved understanding of the

N/A	laborate on updating the	Nkululeko to chat with Marielle for the possibility of adding the guidelines as a deliverable on the DEADP GEES project	reen economy sector barrier remo
N/A	ing or reinsuring water int	To continuously share new information related to insuring the water sector	ing improved understanding of the
Durban ICC	o set up an SPV to fund	The GreenCape team will share any prospective projects that are looking for funding	eased investment / finance availat
Durban ICC	l is interested in conduct	The GreenCape team will share any prospective projects that are looking for funding	eased investment / finance availat
GreenCape office	or projects for investmen	The GreenCape team will share any prospective projects that are looking for funding	eased investment / finance availat
	Gain insights on Energy Services projects and trends	Incorporation of industry insights into market intelligence report No direct barriers identified.	Enabling improved understanding of the market
	To learn more about business offering, gather market intelligence, and determine areas where GreenCape can address barriers to the growth of their business	Discussed use-cases of biogas, thermal energy storage, and batteries in the agricultural sector in WC. Will share relevant data from their projects as well as relevant resources from GreenCape's side as well as any relevant contacts or events in the future	Ecosystem development (market intelligence)
	To learn more about business offering, gather market intelligence, and determine areas where GreenCape can address barriers to the growth of their business	No direct barriers identified. Discussed use-cases of energy management system in the agricultural sector in WC. Will share relevant data from their projects as well as relevant resources from GreenCape's side as well as any relevant contacts or events in the future	Enabling improved understanding of the market
GreenCape Offices	Gain understanding of new business venture	Continued engagements on any particular barriers within GreenCape's mandate to address	Ecosystem development (market intelligence)
	Gain understanding of evolving business case for Li-ion storage with recent lapse in loadshedding	Gained insights in market, made new connections in Hubble, will share relevant resources, event invites with them, also incorporate their insights into the MIR	Enabling improved understanding of the market
NA	Gain understanding of evolving business case for Li-ion storage with recent lapse in loadshedding	Gained insights in market, made new connections in Hubble, will share relevant resources, event invites with them, also incorporate their insights into the MIR	Enabling improved understanding of the market
NA	Discuss progress with development of large scale projects in Western Cape	Introduction to Green Finance team at GC	Enabling improved understanding of the market

NA	To assist with data alignment with GreenCape's work on the lifecycle and recycling of PV panels Provide landscape of current biogas operations in the province as part of a proposal being written for a future project proposal on the production of hydrogen from biogas	Meeting was coordinated with representative from GreenCape's Circular Economy team	Increased real-world application / relevance of academia
NA	Provided them with overview of current large-scale RE landscape in South Africa (and WC) for their future planned project. Gathered industry insights. To review quotes provided for their planned PV and storage installation and provide background on key elements of quotes, compliance, and financing to consider	Provided overview of GreenCape's work in field of biogas, relevant biogas projects/installations, set up introductory meeting with GreenCape circular economy team	Increased real-world application / relevance of academia
GreenCape Offices	Gain insights on large-scale RE and storage projects and trends Learn about planned green ship recycling facility at Freeport Saldahna and address barriers faced Gain insights on embedded solar market in WC	Sharing of national MIR with them and stay in touch Mescho representatives happy with assistance, made their decision and will install system pending replacement of asbestos roof	Ecosystem development (market intelligence) SME development
Mescho Offices, Blackheath G7 Offices, Buitengracht Street	Requested information on legislation/regulations/building codes governing the installation of CBS. Marius Truter has an innovative idea to enhance the water quality of the Clanwilliam Dam.	Incorporation of industry insights into market intelligence report Will speak to colleagues to try find contacts that can assist with marine EIA	Ecosystem development (market intelligence)
GreenCape Offices		Continue collaboration and stay in contact	Ecosystem development (market intelligence)
NA		Sent through draft norms and standards from DWS on water and sanitation as well as best practices and guidelines for CBS developed by GreenCape and CBSA and funded by the City of Cape Town.	Ecosystem development (market intelligence)
NA		GreenCape cannot provide support as there is currently no tender for such a project.	SME development

NA	Sent email with CBS guidelines and best practices developed by GreenCape and CBSA, funded by CoCT.	As a key player in the CBS industry, these guidelines and best practices may be of interest to these stakeholders for further advancement of green sanitation solutions.	Ecosystem development (market intelligence)
NA	Sent email with CBS guidelines and best practices developed by GreenCape and CBSA, funded by CoCT. NA	To provide support to ensuring businesses are aware of the upcoming Business Water Outlook event	Provide support in disseminating invites and making introductions	Increased investment / finance availability
N/A	Shared information on current innovative private sector support services (incl. govt grants and tax incentives)	Increased awareness of govt grant and tax incentives and how to access them	Enabling improved understanding of the market
N/A	Understand how insurers view water-related risks to businesses, what data used	Set up a follow up meeting	Enabling improved understanding of the market
N/A	To provide support to the municipal water engineers programme	Set up a follow up meeting to provide support to the municipal water engineers	Increased real-world application / relevance of academia
N/A	To understand the City's plans for treated effluent so that we can share it with businesses	Share information on TE with the C&I CT-based businesses we engage with	Ecosystem development (market intelligence)
N/A	To understand use cases for AI in identifying opportunities for rooftop solar and potential market sizing	Remain in touch and identify opportunities for future collaboration	Ecosystem development (market intelligence)
N/A	Discuss trends, barriers, opportunities in C&I space in Western Cape	Set up follow up meeting with Western Cape rep	Ecosystem development (market intelligence)

GreenCape Offices	Provide overview and landscape for new large scale renewable energy projects in South Africa (with specific focus on WC as requested)	SGP to continue research on potential opportunities and revert with any further questions	Ecosystem development (market intelligence)
N/A	Gain insights on large-scale RE, embedded PV< and storage projects and trends	SPS to review PV cost benchmarks and provide feedback	Ecosystem development (market intelligence)
N/A	Discuss key challenges in the renewable energy sector.	Key issues highlighted. Municipal wheeling identified as a core challenge for PPAs. She needs to engage with concept developers in Cape Town to improve on her product and align with manufacturers.	Enabling improved understanding of the market
N/A	Discuss what is needed for her to grow her business.		SME development
N/A	Request information on RE developers that might be interested in a suitable site.	Cape Town based developer details shared.	Enabling improved understanding of the market
N/A	Gain insights on Energy Services projects and trends	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
N/A	Gain insights on Energy Services projects and trends	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
N/A	Update on project development progress and engage on assistance GreenCape may offer	Karen to provide Project Memo and direction in terms of sharing with funders	Increased real-world application / relevance of academia
N/A	Gain insights on Energy Services projects and trends	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
N/A	Gain insights on Energy Services projects and trends	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
N/A	Gain insights on Energy Services projects and trends	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
N/A	Understand PV Safety issues	Incorporate into PV Safety market engagement for event	Municipal support engagement
N/A	Understand PV Safety issues	Incorporate into PV Safety market engagement for event	Municipal support engagement
19 Fredman Drive, Sandown	Gain insights on Energy Services projects and trends	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
N/A	Understand PV Safety issues	Incorporate into PV Safety market engagement for event	Municipal support engagement
42 Hans Strijdom Avenue, Cape Town	Gain insights on Energy Services projects and trends	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
N/A	Understand PV Safety issues	Incorporate into PV Safety market engagement for event	Municipal support engagement

N/A	Gain insights on Energy Services projects and trends	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
N/A	Gain insights on Energy Services projects and trends To discussion water resilience at commercial and industrial scale	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
N/A	Gain understanding of the MyWater platform. They are looking for R250000 seed funding for road shows	Standard Bank will share their water investment mandate	Increased investment / finance availability
N/A	Gain understanding of their carbon credits business model	GreenCape team to share any open call opportunities Point to potential projects for them to partner with going forward that fit within their focus area	Increased investment / finance availability
N/A	Gain insights on on new developments in the battery manufacturing space	Set follow up meeting. Incorporation of industry insights into market intelligence report	Ecosystem development (market intelligence)
CTICC, Foreshore	Gain insights on on new developments in the battery manufacturing space	Set follow up meeting. Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
CTICC, Foreshore	Share market intelligence	Set follow up to discuss incubation opportunities	Enabling improved understanding of the market
CTICC, Foreshore	Gain insights on Energy Services projects and trends	SME development	Enabling improved understanding of the market
CTICC, Foreshore	Gain understanding of regional demand for SA Manufactured RE components and products.	Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
CTICC, Foreshore	Discussed their view of the market opportunity for remote monitoring of installed residential and commercial RE systems (PV+BESS)	Set follow up meeting. Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
CTICC, Foreshore	Discussed their view of the market opportunity for EV battery charging infrastructure	Set follow up to discuss finance support opportunities	Green economy sector barrier removal
CTICC, Foreshore	Share market intelligence	Set follow up meeting. Incorporation of industry insights into market intelligence report Set follow up for discussion in terms of partnering in the alternative service delivery sector	Enabling improved understanding of the market
CTICC, Foreshore	Discussed their activity in alternative service delivery		Knowledge transfer to public sector

CTICC, Foreshore	discussed their services and desire to assist SMME's They represent global manufacturer of Solar Panel raw materials looking to engage with RSA manufactures of Solar Module	Set follow up to discuss incubation opportunities they can support	SME development
CTICC, Foreshore	Gain insights on Energy Services projects and trends. They are looking to enlarge groups of current investors and become a PPA provider.	Set follow up meeting. Share market intelligence.	Green economy sector barrier removal
CTICC, Foreshore	Discussed struggles with finding and securing offtakers for their Private solar development in the North West. Shared market intelligence	Set follow up meeting. Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
CTICC, Foreshore	Discussion on WWTW and industrial effluent in Cape Town and the broader South Africa. Canadian Trade Commission is doing a study on WWTW and industrial effluent management in developing countries and how Canadian Tech could assist/enter the market.	Set follow up meeting. Incorporation of industry insights into market intelligence report	Enabling improved understanding of the market
GreenCape Offices		Provided detailed market insights. Set up meetings with other stakeholders in the sector - Dr Marlene vd Merwe-Botha and Ashton Mpofu. Send through MIRs.	Ecosystem development (market intelligence)
Solar & Storage Live conference	Discussing the Grouped Solar Carbon Credit Project, which is designed to help solar PV installations benefit from carbon credits. Struggling to get discharge licenses and incorrect information for Water Use Licenses for boreholes.	Highlighted the initiative to the energy team for possible further engagement and adding as a future block to the MIR.	Ecosystem development (market intelligence)
N/A		Mediclinic will forward information - GreenCape to escalate to DWS provincial.	Green economy sector barrier removal
N/A	Discussion on the asset management and water demand management platforms that are being built by Mezzanine.	Possible industry brief and roll out in other municipalities. Send Mezzanine Cape Agulhas Smart City case study.	Green economy sector barrier removal

N/A	<p>Introduction to Memcon and GreenCape. Discussion on innovative solutions to build water resilience for private sector companies.</p> <p>Discussion of the market opportunities in the MIR. As AR Africa is a company who have partnered with international companies to bring in specialised tech to the water industry their take and insight on how best to present the opportunities was very helpful. AR Africa recommended that we investigate the opportunities in the water sector from a power requirement perspective.</p>	<p>Looking at including Memcon at the prospective industry event for the textile association to discuss innovative water treatment methodologies and ways to build water resilience within your business.</p>	Ecosystem development (market intelligence)
AR Africa Offices, Maccassar	<p>Discuss the development of his technology and his immediate needs for market entry in the renewable energy space. Share insights about GreenCape and explore the possible avenues of support for advancing his idea.</p>	No next steps at the moment.	Ecosystem development (market intelligence)
GreenCape offices	<p>Training on key components in the industrial water value chain, their use cases and opportunities for local distribution and</p>	Exploring GreenCape's network for partnership and collaboration	
Ocean Breeze Hotel, Strand	potentially manufacturing.	Incorporate key components as presented in the water MIR.	Local manufacturing

Ocean Breeze Hotel, Strand	<p>Discussion on the desalination plant that was built at the V&A Waterfront. It is an 5MLD plant with possible scope for upgardes with an either 2.5MLD or another 5MLD. The V&A Waterfront fronted the costs for the plant and are now selling water to the industries and businesses close by.</p>	No next steps at the moment.	Ecosystem development (market intelligence)
GreenCape	<p>Support requested to disuss a biogas project that Kainos has planned in Swaziland - supportt requestd for commuications support, and introductions were made to an egacny that can support the project's marketing and communications needs.</p>	Follow up on other service offerings, specifically on sludge beneficiation.	Enabling improved understanding of the market
N/A	<p>To provide support in accessing government grants to expand their local and international footprint</p>	Send contacts for support in accessing DTI grants, set follow up discussion	Increased real-world application / relevance of academia
GreenCape	<p>Presentation on market opportunities in the energy and water sectors in the Western Cape. These companies were looking at understanding the current market and how to penetrate the market.</p>	Sending through MIRs.	Ecosystem development (market intelligence)
GreenCape	<p>Presentation on market opportunities in the energy and water sectors in the Western Cape. These companies were looking at understanding the current market and how to penetrate the market.</p>	Sending through MIRs.	Ecosystem development (market intelligence)

GreenCape	Presentation on market opportunities in the energy and water sectors in the Western Cape. These companies were looking at understanding the current market and how to penetrate the market.	Sending through MIRs.	Ecosystem development (market intelligence)

GreenCape	Production data for 2023 and 2024 outlook	Production data for 2023 and 2024 outlook	Ecosystem development (market intelligence)
GreenCape	Connecting to new EPCS	Connecting to new EPCS	Ecosystem development (market intelligence)
GreenCape	Understanding and accessing carbon credit market	Understanding and accessing carbon credit market	Ecosystem development (market intelligence)
GreenCape	Status of solar PV asset management - 2023 summary	Status of solar PV asset management - 2023 summary	Ecosystem development (market intelligence)
GreenCape	Status of solar PV asset management - 2023 summary	Status of solar PV asset management - 2023 summary	Ecosystem development (market intelligence)
GreenCape	Status of solar PV asset management - 2023 summary	Status of solar PV asset management - 2023 summary	Ecosystem development (market intelligence)
N/A	Discussion on payment models for sanitation in communities and informal settlements. Discussion on risk modelling for inverters and insurers in the Solar energy space, encountering challenges of it being an industry they do not understand the technical aspects of, which becomes problematic	Set up follow up discussion with the wider ASDU team to discuss payment models for energy services and lessons learnt that could be implemented in the sanitation sector.	SME development
CTICC, Foreshore	Cipla is interested in finding innovative ways to reduce their water use by 2% annually until they reach neutrality by 2030	Will be documented on the Grid needs mapping report under climate works	Increased investment / finance availability
N/A	Introduction to Cipla for a potential water stewardship project	Introduction to WWF to collaborate on a water stewardship programme and share the list of water treatment providers in the western cape	Increased investment / finance availability
N/A		Follow up on the relationship as it develops	Increased real-world application / relevance of academia

N/A	Precision is looking to apply for water star rating certification and they are also exploring green finance options to scale their offering to the international market	Follow up meeting to be held to discuss their financial ask and assess which connections can be made	Increased investment / finance availability
N/A	Discussion on procurement for water infrastructure projects and the financing of businesses that want to partner with international organisations/ businesses for the export market	A meeting between Wesgro, GreenCape and Investec will follow	Enabling improved understanding of the market
CTICC, Foreshore	Discussion on the Grid Financing models Assistance for developing a Renewable Energy Hybrid system in Saldanha	Follow up as the space develops and reported in the Grid needs mapping	Enabling improved understanding of the market
CTICC, Foreshore		Follow up meeting to be held to map out what assistance is needed from us and what extend we can help where we can	Increased real-world application / relevance of academia
CTICC, Foreshore	Discussion on skills development and how Greencape can assist with regards to courses and inservice training she offers for youth within her company	Follow up and indepth discussion on the full details of the skiils development programmes she offers	Skills development (public & private)
CTICC, Foreshore	Discussion on challenges experienced by developers due to grid constraints, wheeling framework	Follow up on updates and the space progress	Enabling improved understanding of the market
CTICC, Foreshore	Assistance with suitable clasiffication for their microinverters on the City's SSEG online registration	Follow on whether the issiue was resolved from the City's end	Increased real-world application / relevance of academia
CTICC, Foreshore	Discussion on the Grid Financing models	Follow up as the space develops and reported in the Grid needs mapping	Enabling improved understanding of the market
N/A	Discussion on project synergies.	Introduction on the SIDAFF Programme, highlighting the 4 WC municipalities that are part of the first cohort, noting that once tenders go out for external consultants they will be notified.	Green economy sector barrier removal
N/A	Discussion on the feasibility of chicken manure-fed biogas production for electriciity generation	provided list of service providers that are suited to help with electrification in rural areas	Ecosystem development (market intelligence)

N/A	Discussed the potential for using bio bricks to treat dye wastewater effluent	We will facilitate introductions between Crislor Environmental with textile companies	Ecosystem development (market intelligence)
N/A	Discussed plans to enter renewable energy market and what opportunities exist there for investmernt	Will provide guidance based on detailed outline provided, shared national market intelligence reports	Ecosystem development (market intelligence)
N/A	Understanding C&I obstacles with regitering systems with Municipalities and the RETEC process	Highlevel discussion requires follow up to included details in market intelligence	Ecosystem development (market intelligence)
Stellenbosch	Understanding opportunity of C&I customers to benefit from Cash for Power program	Follow up meeting to discuss opportunity further	Enabling improved understanding of the market
N/A	Sector Desk opportunity introduction	Follow up on Sealtron Team input	Enabling improved understanding of the market
N/A	Discussion of Project Development partnerships and electricity aggregator market in South Africa	Shared Nersa details to find licenced aggregators	Enabling improved understanding of the market
Cape Town	Hosted event to engage Solar PV industry and Government on Extended Producer Res[p]onsibility	Engage industry further on topic	Enabling improved understanding of the market
GreenCape offices	Share work being done in area of skills and professionalisation of PV industry	Sharing of resources and continuation of the relationship	Skills development (public & private)
N/A	Discuss potential for developing guidlines to unlock decentralised wastewater treatment	Improved understaning of status quo. Existing guidlines to be shared. (1) Reach out to DWS provincially to discuss WUL requirements; (2) CoCT to provide guidnace on WSI application	SME development
N/A	Questions and concerns relating to water use licences	(3) DWS national and provincial to provide assistance with incorrect info on WULs	Green economy sector barrier removal
Intersolar Europe 2024	Manufacturer of medium- and large scale storage systems. Own factory in Bavaria, expansion to promising markets in progress	Local manufacturing interest in SA: Not yet , principle interest is likely	Local manufacturing

Intersolar Europe 2024	Manufacturer of large and industrial scale storage systems. Own factory one hour south of Berlin, international expansion in progress	Local manufacturing interest in SA: Not yet, principle interest is likely	Local manufacturing
Intersolar Europe 2024	Manufacturer of residential battery storage systems, also software company offering integrated solar battery & energy management solutions for consumers, Shell subsidiary	No Local manufacturing interest in SA	Local manufacturing
Intersolar Europe 2024	Similar company like sonnen, offering residential battery storage systems to be used in combination with Solar PV, part of there batteries are manufactured by OEM third party companies	No Local manufacturing interest in SA	Local manufacturing
Intersolar Europe 2024	Manufacturer of modular and scalable large battery storage systems, part of the Hoppecke Group (also battery storage systems, but focussed on Iron Lead batteries)	Local manufacturing interest in SA: international expansion planned	Local manufacturing
Intersolar Europe 2024	Very experienced manufacturer of Solar PV inverters at Gigawatt scale	Local manufacturing interest in SA: active all over the world. Also past and present activities in South Africa	Local manufacturing
Intersolar Europe 2024	Manufacturer of PV inverters, mainly for larger PV installations Siemens subsidiary since a few years	Interest in international expansion should be imminent since they are a Siemens company and therefore international business is part of their "DNA".	Local manufacturing
Intersolar Europe 2024	One of the world leading Inverter Manufacturers based in Israel with a strong footprint in Europe and Germany	No current Local manufacturing interest in SA I	Local manufacturing
Intersolar Europe 2024	Small Manufacturer of Solar PV inverters, mainly for residential rooftop installations	No current Local manufacturing interest in SA I	Local manufacturing
Intersolar Europe 2024	Manufacturer of PV inverters, partly with having production outsourced to OEM third parties	No current Local manufacturing interest in SA I	Local manufacturing

Intersolar Europe 2024	Manufacturer of PV inverters from Austria with a strong footprint in Germany	Company is active in various foreign markets, Interest in a manufacturing base abroad is unknown	Local manufacturing
Intersolar Europe 2024	Very experienced Manufacturer of Solar PV Mounting Systems, all dimensions and applications in the product portfolio	Strong international footprint, Activities in South Africa likely (only distribution and sales so far)	Local manufacturing
Intersolar Europe 2024	Very experienced Manufacturer of Solar PV Mounting Systems, all dimensions and applications in the product portfolio	No current Local manufacturing interest in SA I	Local manufacturing
Intersolar Europe 2024	Swiss company with a strong footprint in Germany and long standing experience especially in Mounting Systems for roof-integrated Solar PV	No current Local manufacturing interest in SA I	Local manufacturing
Intersolar Europe 2024	Specialized Manufacturer of Groundings and Mounting Systems for Solar PV (open field solar)	active in various international markets, interest in a manufacturing base abroad is unknown	Local manufacturing
Intersolar Europe 2024	Experienced Swiss manufacturer of Solar PV manufacturing equipment and cells and moduls. Currently shifting production facilities from Germany to the US with regards to IRA subsidies. R&D and cell production is still situated in Germany	active in various international markets, interest in a manufacturing base abroad is unknown, at least they might be interested in providing their production equipment technologies	Local manufacturing
Intersolar Europe 2024	New manufacturer Solar PV with production plant near Berlin	In principle interest should be there for local manufacturing	Local manufacturing
Intersolar Europe 2024	Chinese company, but with long-standing experience and production base in Germany	No current Local manufacturing interest in SA I	Local manufacturing
Intersolar Europe 2024	Korean company, which once took over the German company "Q.Cells". Big R&D production line is situated in Germany, production in Asia	No current Local manufacturing interest in SA I	Local manufacturing

Intersolar Europe 2024	German company, specializing in Solar PV panels for EV integration, manufacturing plant in China	No current Local manufacturing interest in SA I	Local manufacturing
Intersolar Europe 2024	German company delivering machines for Solar PV manufacturing Mainly an EPC company, but also manufacturer of small BOS components	No current Local manufacturing interest in SA I	Local manufacturing
Intersolar Europe 2024	One of the biggest EPC companies in Germany with a strong international footprint	Krannich already runs own South Africa activities with a subsidiary in Cape Town	Local manufacturing
Intersolar Europe 2024	One of the biggest EPC companies in Germany with a strong international footprint	Actively exploring local manufacturing in South Afrirca	Local manufacturing
Intersolar Europe 2024	One of the biggest EPC companies in Germany with a strong international footprint also specialist for new applications such as Agrivoltaics and floating PV TÜV is one of the world's leading certification body institutes, also very active in the solar business, they do product certification and have several education activities in the solar business	Actively exploring local manufacturing in South Afrirca	Local manufacturing
Intersolar Europe 2024	TÜV is one of the world's leading certification body institutes, also very active in the solar business, they do product certification and have several education activities in the solar business	Actively exploring local manufacturing in South Afrirca	Local manufacturing
Intersolar Europe 2024	UL is the other big international certification body beside TÜV	Actively exploring local manufacturing in South Afrirca	Local manufacturing

Intersolar Europe 2024	<p>Fraunhofer ISE and Fraunhofer CSP are world-famous research institutes in Solar PV. They are holder of several efficiency and yield records of solar cell technologies. There research often results in spin-off start-up activities or find direct application within the solar industry</p>	<p>international activities and cooperation in India and the US, South Africa is unknown</p>	Local manufacturing
Intersolar Europe 2024	<p>Fraunhofer ISE and Fraunhofer CSP are world-famous research institutes in Solar PV. They are holder of several efficiency and yield records of solar cell technologies. There research often results in spin-off start-up activities or find direct application within the solar industry</p>	<p>international activities and cooperation in India and the US, South Africa is unknown</p>	Local manufacturing
Intersolar Europe 2024	<p>WAGO is a leading company in transformers and other small BOS (balance of system) components for Solar PV</p> <p>The company is a provider of turnkey capital equipment for PV and also semiconductors, health tech, packaging/coating and battery/hydrogen (thin film) applications.</p>	<p>Company is active in various foreign markets, Interest in a manufacturing base abroad is unknown</p>	Local manufacturing
Intersolar Europe 2024	<p>Manufacturer of inverters</p>	<p>Potential local assembly driven by market</p>	Local manufacturing
Intersolar Europe 2024	<p>ABO Wind develops and builds wind and solar farms as well as battery and hydrogen projects worldwide.</p>	<p>Used to have a manufacturing facility in SA. Still has a large presence in the SA market</p> <p>already has a portfolio of projects in SA (some of them with Sola Group)</p>	Local manufacturing

	<p>Delegation from Germany Dr Christian Neugebauer (German Renewable Energy Federation)</p> <p>Dr Nadine Kanu (German Wind Energy Association)</p> <p>Ronald Upmann (German Solar Association)</p> <p>Katharina Hartmann (sequa)</p> <p>Martin Strähle (external auditor to sequa)</p>		
GreenCape	Finance for energy SMEs and what Holocene can offer.	Support to partnership between SAPVIA and German delegation Invite Holocene to participate in finance events and share pipeline.	Ecosystem development (market intelligence)
Online	Pumped Hydro Storage in the South African market		Increased investment / finance availability
Online	GTS Implementation Trilateral Meeting (NDOT, GreenCape and SANEDI)	Support needed with EIA - email sent to DEADP	Enabling improved understanding of the market
Online	To share insights about the future of South Africa's Green economy and how Greencape's water team promotes the participation of green technology in the water sector	Link to energy and SAREM	Enabling improved understanding of the market
Sustainability Institute, 22 Lynedoch Eco-village, Stellenbosch.	Discussed the potential for activated carbon for desalination projects in the Western Cape	To continue sharing insights and how to promote the inclusion of green tech to unlock investment and its employment potential.	Enabling improved understanding of the market
The Premier Hotel, Sea Point	Discussed the potential of taking the lessons from Cape Town to the Gauteng water challenges Presented the CEO guide to water resilience to the annual hybrid conference on Water Desalination, RO/Membrane and Wastewater Reuse	To continue sharing insights on activated carbon	Enabling improved understanding of the market
The Premier Hotel, Sea Point		To continue dialogue on business water resilience	Increased real-world application / relevance of academia
The Premier Hotel, Sea Point		Zambezi to share useful resources from GreenCape to the attendees	Enabling improved understanding of the market

N/A	Catch up on their recent alternative disinfection project for the Bergrivier municipality and GVS is also seeking potential funding for their client in Botswana	GreenCape to share the financier database with GVS	Enabling improved understanding of the market
GreenCape	ASEZ strategic planning session	Shared details on how the SEZ was conceptualised and how it can think about success	Enabling improved understanding of the market
GreenCape	Discussion market opportunity in Energy and Water (Alternative services)	Shared insights, ongoing engagements	Ecosystem development (market intelligence)
Virtual	Discussed the market and Botswana and Clustering	Ongoing engagement, Explore opportunity	Enabling improved understanding of the market
Virtual	Discussion and Alignment (Water, Energy)	Catchup quarterly to engage and align	Enabling improved understanding of the market
Virtual	Discssion on Transmission and Role of regulator	RAP to support with a paper on the role of a regulator	Knowledge transfer to public sector
GreenCape Offices	Presentation on market opportunities in the energy, water, circular economy, and green finance sectors in the Western Cape and accross the country. These companies were looking at understanding the current market and how to penetrate the market.	No next steps at this stage.	Enabling improved understanding of the market
GreenCape Offices	Presentation on market opportunities in the energy, water, circular economy, and green finance sectors in the Western Cape and accross the country. These companies were looking at understanding the current market and how to penetrate the market.	No next steps at this stage.	Enabling improved understanding of the market

GreenCape Offices	<p>Presentation on market opportunities in the energy, water, circular economy, and green finance sectors in the Western Cape and accross the country. These companies were looking at understanding the current market and how to penetrate the market.</p>	No next steps at this stage.	Enabling improved understanding of the market
GreenCape Offices	<p>Presentation on market opportunities in the energy, water, circular economy, and green finance sectors in the Western Cape and accross the country. These companies were looking at understanding the current market and how to penetrate the market.</p>	No next steps at this stage.	
GreenCape Offices	<p>Presentation on market opportunities in the energy, water, circular economy, and green finance sectors in the Western Cape and accross the country. These companies were looking at understanding the current market and how to penetrate the market.</p>	No next steps at this stage.	Enabling improved understanding of the market
GreenCape Offices	<p>Presentation on market opportunities in the energy, water, circular economy, and green finance sectors in the Western Cape and accross the country. These companies were looking at understanding the current market and how to penetrate the market.</p>	No next steps at this stage.	Enabling improved understanding of the market

GreenCape Offices	<p>Presentation on market opportunities in the energy, water, circular economy, and green finance sectors in the Western Cape and accross the country. These companies were looking at understanding the current market and how to penetrate the market.</p>	No next steps at this stage.	Enabling improved understanding of the market

GreenCape office	Breakfast with the Deputy Minister of Electricity	Input on challanges	Enabling improved understanding of the market
GreenCape office	breakfast with the Deputy Minister of Electricity	INput on challanges	Enabling improved understanding of the market
GreenCape office	breakfast with the Deputy Minister of Electricity	Input on challanges	Enabling improved understanding of the market
G20 Rio, Brazil	Discussion of clusters, collaboration, markets and working together	Insight for G20 in RSA	Enabling improved understanding of the market
G20 Rio, Brazil	Discussed a specific collaboration on water & CE - Discussed a general collaboration on G20 and urban resilience	insights for G20 in RSA	Enabling improved understanding of the market
G20 Rio, Brazil	Discussed the role of Philanthropy in energy transition with a veiw to RSA hosting G20	insights for G20 in RSA	Enabling improved understanding of the market
CPI office Rio -	Discussed collaboration and the finance in common conference in Cape town. Discussed hosting CPI to run a project at the GreenCape office	Continued collaboration - the Climate finance lab finalist hosted at GreenCApe	Enabling improved understanding of the market
Mount Nelson	Collaboration opprotunities	Follow up when Breakthrough announces their new round	Enabling improved understanding of the market

Mount Nelson	Collaboration opportunities Data and inputs sharing on the South African Energy and water markets	Follow up when Breakthrough announces their new round	Enabling improved understanding of the market
GreenCape		Adhoc followups	Ecosystem development (market intelligence)
Ottery, Coalition offices	Market insights and skills work	adhoc follow ups	Municipal support engagement
The Interchange Somerset West, ExSolar offices	understanding the role of municipalities in promoting RE within their jurisdiction	adhoc follow ups	Municipal support engagement
Swellendam, Windstrom offices	understanding the role of municipalities in promoting RE within their jurisdiction	adhoc follow ups	Municipal support engagement
Beaufort West, Allsolar offices	understanding the role of municipalities in promoting RE within their jurisdiction	adhoc follow ups	Municipal support engagement
Joburg	To discuss opportunities to increase private sector financing of W&S infrastructure projects Discussed opportunities to support their business members with water resilience support	Follow up with NT	Green economy sector barrier removal
Joburg		Follow up to share support offered in WC	Increased investment / finance availability
GreenCape	Discuss large-scale renewable energy landscape updates	Continued engagements on any particular barriers within GreenCape's mandate to address	Ecosystem development (market intelligence)
GreenCape	Discuss C&I market for Energy Storage Discuss the CyanCycle hydro thermal liquefaction technology for wastewater treatment and sludge beneficiation	Continued engagements on any particular barriers within GreenCape's mandate to address	Ecosystem development (market intelligence)
GreenCape		Introduce CyanCycle to potential funders to fund project transactions	Increased investment / finance availability
Email	REquired assistance with incorrect details on invoices from DWS. GreenCape set up a meeting with DWS where the solution was presented.	Email assistance and guidance on how Mediclinic can amend their information on the invoices sent from DWS for WULs.	Green economy sector barrier removal

GreenCape	<p>ZWT has asked for support to identify demonstration sites and investors for its new venture</p> <p>Normandie Seine chapter of Crédit Agricole, one of the largest banks in France, visited GreenCape for market insights in the Water, Energy and Agriculture sectors. GreenCape gave market overview presentations.</p>	<p>Technical briefing to sector desks to support identification of demonstration sites, feedstock, offtakers; introduction to potential investors.</p>	<p>Increased investment / finance availability</p>
GreenCape	<p>Normandie Seine chapter of Crédit Agricole, one of the largest banks in France, visited GreenCape for market insights in the Water, Energy and Agriculture sectors. GreenCape gave market overview presentations.</p>	<p>No actions at this stage - share presentations.</p>	<p>Ecosystem development (market intelligence)</p>
GreenCape	<p>Normandie Seine chapter of Crédit Agricole, one of the largest banks in France, visited GreenCape for market insights in the Water, Energy and Agriculture sectors.
