Free help desks in support of energy and water resilience for businesses in Overberg

Businesses are invited to access green economy help desks coming to **Hermanus** in **October** by scanning the **QR code** or contacting events@green-cape.co.za to register your interest.

These help desks are hosted by the Western Cape Department of Environmental Affairs and Development Planning and GreenCape and provide information (technical, financial, and regulatory) on energy-related and water-related matters. The aim is to drive greater awareness for businesses on the options available to become more **energy** and **water resilient** by implementing renewable energy and water-efficiency interventions.

Scan the QR code below to RSVP or contact: events@green-cape.co.za for inquiries

GreenCape has partnered with the Western Cape Department of Environmental Affairs and Development Planning to host a green economy help desk for businesses in Hermanus in October. These free, in-person help desks are open to all businesses and SMMEs within the Overberg District. They aim to provide support on water- and energy-related issues, with expertise from professionals in the water, energy, and agriculture sectors.

About the help desks:

Businesses are invited to register to attend these help desks, where they will receive access to direct, one-on-one consultations with green economy sector experts as well as information (technical, financial, legal) on renewable energy, water, and sustainable agriculture. These help desks are free and in-person, and are intended for all businesses across all value chains (agriculture, tourism, hospitality, manufacturing, retail, utilities, infrastructure, corporate, services etc.) that wish to consult green economy experts on water and energy-related issues or assess options available to implement renewable energy or water technologies to build resource resilience and efficiency.

The details are :

Date: 9 October 2025

Time: Slot 1: 09:00 – 12:00; Slot 2: 13:00 – 16:00

Venue: Civic Auditorium and Banqueting Hall, 1 Harmony Avenue, Hermanus

Registration link: <https://forms.gle/n765jc94BcnfRH9w6>

Businesses will receive access to:

- One-on-one consultations with green economy sector desk experts
- Resources that will assist businesses with investment decisions on building energy and water resilience
- Networking opportunities with other businesses and ecosystem players
- Engagement with the local municipality and provincial government
